NetWork
Add-on table.

Constructed of four-sided, half-oval shaped top frame and round legs, both of powder-coated or chrome-plated steel tube. Functional gap between table top and supporting frame accepts accessories and adapters for the linking of further tables and tops.
Electrification is available through a grid cable basket which is hinged on both sides or clip-on plastic modules. The cable outlets are holes with plastic or aluminium inserts.
Table heights are fixed or adjustable in either steps or continuously with a winding handle. Legs fitted with levelling screws or castors.
Table top is a melamine-resin laminated, veneered or linoleum covered LIGNOpal chipboard with glued-on plastic or beech edges. Choice of square or round corners. The angled top insert of leather-covered steel sheet can be positioned in the corner and allows a greater table depth and thus optimum spacing from the monitor.
The following material groups are available to choose from: Frame made of steel tube: M1,(chrome-plated); Top made of LIGNOpal-plastic/beech: L3; Top made of linoleum: L8; Top veneered: F1.
