PRODUCT INFORMATION Shift-p-BStandStud_TY_US - 08.11.2023 - www.vsamerica.com

Shift+ Base
Height adjustable sit-at/stand-at school table.

Frame made from welded, powder-coated, U-shaped steel skids and a centrally positioned upright. Skids with four castors as standard, two of which are lockable. Optionally with bookshelf and/or screen.
Function: The gas spring is triggered using a handswitch at the edge of the desk top. The handswitch is equipped with a safety cover to protect against unintentional activation.
Desk height continuously height-adjustable with built-in gas spring.
Tabletop made from melamine resin or laminate-coated LIGNOpal chipboard with glued plastic edge or high-strength solid HPL top. All with round corners.
Equipment: Optionally available with a bookshelf made from metal sheet bended on three sides below the tabletop and/or a chipboard or HPL screen.
The following material groups are available to choose from: Frame made of steel: M1; Top made of chipboard: L4; HPL-top: L4; Chipboard with laminate: L2,(white writable).
