

PRODUCT INFORMATION Level76-LuPo_TY_EN - 18.01.2021 - www.vs-furniture.com

Level-LuPo Skid chair - ergonomic seating solution for multi-year classroom groups.

Frame made from bended, powder-coated or chromium-plated circular steel tube with step-by-step, height-adjustable foot support (optional in the 31409) for adaptation to the child's height. Two robust cross-pieces between the skids ensure the smooth, precise guidance of the foot supports.

Chair sizes for elevated seating (for table height 71 or 76 cm) in fixed sizes, each with four foot support settings, maximum two as specified in DIN EN 1729.

Seat shell made from double-walled, structured polypropylene (LuPo) for comfortable seating with air cushion effect. With covered seat fixing and grip hole.

Equipment and options. Glide elements for hard or soft floors or dual-component multipurpose glide elements or, optionally, interchangeable glides with replaceable glide elements. Optionally available with table edge protection for piggy-back chair stacking.

Recommendation. The Level can be combined with school tables of height 71 or 76 (without book shelf and chair suspension).

The following material groups are available to choose from: Frame made of steel tube: M1,(chrome-plated); Seat and backrest: C1.
