Serie 2000
Typ P. Folding screen.

System consists of a basic screen and one or more (max. 4) add-on elements to create a flexibly-jointed, mobile, free-standing screen.
Construction is based on a four-sided frame of aluminium profile and a filling element. Add-on elements are connected by a flexible joint and can be easily folded together.
Filling elements: 1. Melamine-resin laminated chipboard. **2. chipboard** laminated with a vitreous-enamelled metal sheet to which magnets adhere (at level 155 cm). **3.** From a lightweight top with fabric covering. **4.** A melamine-resin laminated sound-absorbing panel with slits. **5.** A translucent double-ribbed board.
Supporting element consists of short struts each with 2 castors and a supporting castor. For safety reasons paravent screens in kindergartens and schools must be fitted with a push-handle.
Please note: Add-on elements or folding screens can be combined with other furniture systems such as the Serie 600.
The following material groups are available to choose from: Frame made of aluminum: M(anodisé); Stabiliser and foot made of aluminum: M(arctic, black RAL 9011); Writing surface made of steel: E(white); Fabric cover: S46,52,73,74,78,79,80; Acoustic surface made of chipboard: L6.
