## Serie 800 Wall and ceiling closer panels.

Wall and ceiling closer panels are available in melamine-resin-coated LIGNOpal chipboard with glued-on plastic or beech edges. Panels flush with the front are fitted to match the cabinet grid widths with an 8 mm joint, panels flush with the carcass are fitted with a hairline joint. The panels are adapted to the structural body.

The following material groups are available to choose from: Front made of LIGNOpal: L3; Front veneered: F1.
