

PRODUCT INFORMATION S901-UBau-VW_TY_US - 24.05.2023 - www.vsamerica.com

Series 901 Supporting cubic pedestal.

Construction of an glued body out of melamine-resin-coated chipboard. Cubic pedestal for fixed table heights or continuously adjustable in height by means of a winding handle.

Front of melamine-resin laminated chipboard with glued-on plastic edges or powder-coated solid metal, both with metal bow handles.

Body also of chipboard.

Drawers with central locking. Drawers with either single or over-extension, 6 HU (height units) drawers always with over-extension.

Technical compartment for computer with wing door at the front and perforated metal at the rear for improved ventilation. The two table posts integrated in the body minimise the storage space of the technical compartment.

Electrification (optional) in the rear cable storage space with wing door. Cable outlet through holes with metal inserts.

The following material groups are available to choose from: Body made of chipboard: L6; Front made of chipboard: L3; Front veneered: F1.
