

PRODUCT INFORMATION Shift-p-LRegal_TY_US - 06.02.2023 - www.vsamerica.com

Shift+ Transfer Mobile shelving units.

Structure of glued linear and curved (60°) bodies on steel cross-member with 4 (straight) or 5 (60°) technical castors, 2 of which are lockable. Optionally with adjustable feet.

Body made of laminated LIGNOpal chipboard with plastic edge. With glued center walls for partitioning the bodies. With rows of holes (1/8") for adjustable shelf inserts and perforated-metal back panel. Double-sided straight units available with optional LIGNOpal back panel.

Function: Optional with shelf inserts or wardrobe hooks (4-prong or 8-prong) and magnets (optional) on the outer sides for linking other cabinet elements. Curved Landscape seating and cabinet elements can be combined linearly and, thanks to the matched inner and outer radii, back to back to create circular and serpentine seating/cabinet landscapes

Pull-handles (optional) made from steel on the top of the body.

The following material groups are available to choose from: Body made of chipboard: L4; Perforated-plate: M1.

	* Possibility of choosing shelf inserts and wardrobe hooks for each row
